Stay straight. Blacktail Rd and Cabin at 2.3 miles. Stay straight at Montana Bar at 4.2. Run through the location of Diamond City - one of the richest gold strikes in Montana! Stay straight on main at 4.3.	Finally an almost all downhill leg. It's the end of the relay so let it fly and regret your choices later! You might be able to catch the next team if you're fast enough...

Handoff #	Handoff Description

**Historical Note on the Relay's Namesake:** Diamond City was one of the richest gold strikes in Montana starting in 1864, with miners removing 5 billion dollars of gold (by today's standards) over the five years of the boom. It was one of the three largest towns in Montana at that time with around 2,000 people. Amazingly, there is virtually nothing left of the town since the workers washed the 400 buildings away with hydraulic mining in the later years. Many residents became farmers, ranchers, and leaders in Montana following the boom, shaping the history of the state. Diamond City's story is chronicled in "Goldpans, Guns, & Grit: Diamond City from Territorial Gold Rush to Montana Ghost Town" by Kelly Flynn.

15	The One That Goes Past Diamond City Cemetery on Boulder Bar	4.3	253 ft	4

Directions	Runner Description
<p>At .3 go through creek. Separate directions for runner versus vehicles shortly after this.</p> <p><b>RUNNER (There will be signs!):</b> At 0.6 runner turns 180 degrees left towards Spruce Creek Trailhead. Follow signs and stay on the road for this leg. Stay right at switchback at 0.9. Onto private through gate (will either be open or have a sign to go through) at 1.1 miles. At 1.3 turn right downhill to creek (the turn is a little grassy, but you'll see the road to the right). Gate far off to left at 1.5 but follow road right. At 1.6 cross creek to left. Either run through it or scoot across the log you can see to your left. After crossing creek, head past temporary fence and uphill. Go straight and you'll be running in grass for a bit, then stay/turn right when you hit the road. Keep straight on main with no turns. Pass Diamond City Cemetery on Boulder Bar on right at 1.9. Go right at Y at 4.1.</p> <p><b>BOTH VEHICLES:</b> At 0.6 (where runner turns) continue straight on main road. At 0.8 you will see a grassy area on your left with a green metal corral and cabins beyond. Do not turn but instead continue straight on main road until you reach a wooden corral on your left at 3 miles. This is where runner 15 will come down/out and where runner 16 will take off/go back up. It is recommended that one of the two vehicles (WITHOUT runner 16) continues immediately past Handoff 15 to the finish if you want to make sure someone is there when your teammate arrives.</p>	<p>Downs &amp; ups to start, then mostly downhill. Lots of variety here – beautiful meadows, tailings from gold mining, nicely spaced trees from pine beetle logging clean up. Welcome to Hidden Hollow Hideaway Cattle &amp; Guest Ranch!</p>
