Stay right at sign at 2.2 and at Y at 2.3 up Yogo Peak (these two right turns are a little hard to see, less visible/prominent trail, should be going uphill on fairly rocky trail and should reach the book shortly after these turns, we are going to put out cones or flags at each to help). Retrieve the appropriate page number from "Goldpans, Guns, & Grit" found inside the purple bag & flag/cone near the top. This is the end of the leg (2.6 miles) and gets you THE VIEWS. If you choose, go up the rocks on the right to the peak or continue left on the road to check out cement block remains of fire lookout. Return to vehicle the way you came.</p> <p>VEHICLE 1: Remains at handoff.</p>	<p>She's a STUNNER! Tough uphill but runnable. Make sure to take a look at the beautiful surroundings!
